Nocturne W Bowl

Designed by Konstantin Grcic, 2026

12W - 514lm - 2700K - CRI> 90

Modular wall lamp emitting diffused and ambient light. Extruded aluminium base and arm with rectangular wall fixing plate. Extra-clear borosilicate glass diffuser in hemispherical form providing diffuse ceiling wash. Die-cast aluminium Light Engine housed within lamp junctions. Dual LED sources: COB LED and perimetral halo LED. Dimmable phase cut.

Designed by Konstantin Grcic, Nocturne combines the precise logic of industrial aluminium with the timeless beauty of blown glass. In the floor version, the system rises vertically, allowing one or more luminous volumes to structure the space. Conceived as a modular composition, Nocturne opens tailored possibilities for both architectural and domestic environments. Its innovative Light Engine activates the glass from within, pairing high-performance illumination with a soft halo that gives the transparent material a luminous, almost ethereal quality.
